

1955-56 GRADUATES

4-A

SHARON ARMOUR: Besides being the captain of the Basketbabs Sharon also participates in almost every other sport. She is fond of music and plays in the Junior Band. Sharon is the fortunate "French-free" member of our class. Her ambition is to be a lab.-tech. and we're sure she will succeed.

MARY CAMPBELL: A newcomer to Central, Mary became one of the "gang" in no time. She discovered very soon where the students spend their time after school—the Chemistry lab. She is undecided about a future career but whatever she chooses we know she will succeed at it.

DOROTHY CROZIER: Dorothy should be given a medal "for action above and beyond the call of duty" (for a student) as she occupied a seat behind Searce and endured his witticisms and his antics without a word of complaint. A business course will lure Dorothy to Tech next year. Lot's of luck, Dorothy.

BARBARA FRANCE: Before the upheaval in our room, Barb used to enjoy those "parties" in French periods. She is rarely seen without Pam and both girls usually come dashing in as the first bell goes. Barb plans to go to Davidson Business College next year. We couldn't imagine a more attractive secretary.

DEANNA GILLESPIE: "Deaner" is the efficient Business Manager of this year's Outlook. Together with Marnie, and Sheila from across the hall, she has established an "inter-nallway" communication system. She played outstandingly for the Falcons and carries the scars to prove it. Teacher's College will ring with laughter when Deaner invades it with her impish spirit.

VALERIE HERGESHEIMER: Val was our vivacious songleader this year. Her singing ability was also seen in the "lits" and in the operetta. She certainly brightens up our room with her extraordinary laugh. Her marvellous sense of humour and unaffected friendliness will make her a wonderful nurse. All 4A wishes you luck, Val.

NANCY BEAMISH: Nancy is one of the "Big Four" who represented our class in the Bryant Oratorical Contest this year. This accomplished girl plays not only the piano but the organ as well. Her future is uncertain but her ready smile and laughter will be a great asset in any vocation.

MARILYNN CAREFOOT: Marilynn was our capable social vice-president this year. Her facial expressions in Chemistry are really something to see. She is known far and wide for her musical ability. Her ambition is to obtain a teacher's degree in music. We wish her every success in her chosen field.

CAROL DOBNEY: Here is our petite literary vice-president who has worked hard to bring us our "lits" this year. Due to a general upheaval in our seating plan Carol was parted from her "Ink." With her wonderful personality we know she'll make a grand teacher when she attends Teacher's College next year.

BELLE GERIE: On Saturdays Belle can be seen working industriously at Joyner's. We often hear Belle groaning and we know she has just finished a Physic's test. Belle's aim is to attend Varsity to be a nurse. Because she works so hard we know she will graduate with honors.

MARGARET GREEN: Although Margaret is quiet in class she showed her remarkable speaking ability in the Bryant. We do believe her favorite color must be a shade of "air force" blue. She hasn't given any definite thought to the future but we feel sure her quiet determination will bring her success in whatever she undertakes.

LOUISE KERN: Louise is the Einstein of the room and she amazes us all with her 98's. She is also the only female representative in Latin classes. The lucky girl! Her future interests lie in Varsity (Manitoba or even Turkey, eh, Louise?) where we are positive she will achieve honors.

4-A -- Continued

PAM MARSHALL: Pam has worked tirelessly in helping with the "lits" this year. She has also used her speaking ability in the Bryant. In class we hear a tiny giggle penetrating through the room and all heads turn to see Pam trying to smother her laughter. Her noble ambition is to be a veterinarian.

MARLENE PETRESCUE: Marnie is "Her Royal Highness, the Queen of Central" and we couldn't be prouder. This girl has both beauty and brains, being one of the smarter students of our room. She also participates in basketball and almost every other sport including "cookie feeding by Rob." Marnie's ambition is to be a school marm and we feel sure she will make a wonderful one.

MARY-ELLEN WILSON: Occupying a back seat Mary-Ellen can rarely be heard or seen. But quiet though she is, a nicer, friendlier lass could not be found. Her dainty, lady-like manner shames us all, as we come slouching into class in our jeans. Her plans include going to the Teacher's College in M.J., or Seattle.

ROSIE IMAI: Although very small in stature, Rosie accomplishes big things on the basketball court for the Falcons. She is also an expert at dragging down high marks. Rose occasionally breaks into a gale of laughter that startles everyone, especially the teachers.

ROB KENNEDY: Rob is one of Central's busier young men with his duties as leader of the opposition in Council and Editor of the Outlook. He also takes an active part in bowling, curling and basketball. Rob's future may find him as anything from a University scholar to a golf pro.

JOE LARTER: One of Mr. McIver's "dribblin' fools" (sometimes known as the Rockets), Joe plays a good game of basketball even if it is in the "root cellar." Joe is a real wit, as those within hearing distance of his cracks will attest. It's University for Joe, but not Engineering, he assures Mr. V.

BORIS ROMANCHYCH: Aptly tagged as "Bor-eece, the Jack Pocket Rocket," he seems to like playing basketball for the Celtics. Boris claims that he is and always will be a bachelor, which is doubtful. He hopes to attend University, and will probably do well, as he is a diligent worker.

NITA O'SHAUGHNESSY: Nita is 4A's cheerful room rep. Shur-re and she's Irish too, and if ever Ireland should need an ambassador they couldn't find a better one than our Nita. She is known throughout Central for her bowling ability. She wants to be a nurse and we could not imagine a merrier one.

CLAIRE WELBOURNE: Another member of the "Big Four", Claire is active in Girl Guide work. She can usually be seen with her friends from 4B. She amazes all the biology class with her courage during dissection. However, this trait may come in handy when she enters the nursing profession.

BOB CURRIE: Better known as "Treb", Bob is often teased, even by the teachers, for writing somewhat backwards. ("Treb"-RoBERT). He is one of the better players on the "Grads" and also played senior rugby. He penned "the immortal lines" for the boys in "ye olde out-looke." Bob is undecided about the future. But whatever it is, Bob, we all wish you every success.

MACK FYSH: One of the tallest boys in school, Mack is often seen driving that big green station-wagon, but don't worry, he won't hit you—unless he happens to be out for "points". Mack deserves a lot of credit for his hard work on the bonspiel draws.

DAVE SMILEY: Dave played football for the Cyclones, basketball for the Celtics, and also bowled. Trips with the band are a favourite with Dave. Of all 4A he is the most likely to become a world traveller, for he has already gone great distances by way of the "thumb."

MAS YAMAKAMI: Another of Central's stalwart football players, "Sam" takes part in most sports. Mas really likes a good joke, especially one of "Ink's" remarks. He plans on continuing his schooling at University. His big grin is noteworthy.

ROD McNABB: Rod keeps quite busy working in a local drugstore and plans to take up Pharmacy. He was the capable Returning Officer for the C.C.I. elections. Rod is often seen deeply engrossed in a science-fiction book, and is our nominee to pilot the first space ship to the moon.

4-A -- Concluded

COLIN MACKAY: "Clink" was an offensive end for the Cyclones and often receives a razzing for the time he fell flat on his face down at Notre Dame. But really, he was a pretty good end. He has many other sports interests around school. He and friend "Tink" plan to go to University together.

GEORGE LAWSON: George likes his front seat because the teachers invariably look right over him and never see him. But they do catch him occasionally because his guilt is evident when his ears turn a fiery red. This same tip-off is proof of George's interests in a certain young lady.

BOB SEARCY: Room rep. "Searcy" kept quite busy doctoring up the football team and playing for the Clowns. He enjoys a good nickel cigar now and then. Bob has done a little experimenting and although his breed of goose doesn't lay golden eggs, it does do remarkable things.

DALE EYRE: The tallest of the Grads and one of the better rebounders, Dale became a very good centre. After graduation Dale plans to pile up some money by working for two years, then buy a car and take off for far-away places to see if the distant pastures really are the greenest.

CHUCK LYON: Chuck forgot to begin his speech by addressing the class, but quickly recovered with "Friends, Romans, Countrymen." Chuck is one of Central's better bowlers with an average well above 200. He has some great plans for the future but refuses to disclose them.

DAVE MIALL: French period often finds Dave having an honest to goodness party — complete with cake, cookies and coke(?). "Charlie's" remarks are usually good for a laugh, even if it is his own. He enjoys a night out with Joe.

WAYNE SHELDON: Wayne is our quiet boy from the country who finds Mr. Chapman's brand of chemistry somewhat more difficult than that of the correspondence course. He displays a fondness for buying tickets even though he never goes to any of the games.

COLIN THATCHER: As centre of the Cyclone's big powerful line, Colin found himself at a post he could handle; but his football tactics seemed to overlap into basketball with obvious results. "Le Gros T" can create quite a stir in French class when he gives his imitation of Elvis Presley.

KEN CHOW: "Chen" is a "good rogue" who enjoys a night out with the "Bluebirds" although he sometimes ends up in a predicament. He is probably the only Centralite who has a song written about him. After he graduates Ken plans to take up the study of medicine.

DICK SHAW: Dick is our capable student body president. He is also one of Central's better athletes participating in nearly every sport. Dick's pet peeve is that after he had finished four years of football, then they buy new equipment. "Fuzz", as the Bluebirds call him, has an interest in a certain female from Tech. University lies in Dick's future.

LOWELL BECKER: "Boo" is a hot-shot basketball player in P.T. periods. He says his ambition is to be knighted, then he'd be Sir Lowell Becker—classy, eh what!! His future may lie in the music world where he should do well, for he is already an accomplished violinist.

KEN MASONCHUCK: Ken always seemed just like "one of the boys", but Sadie Hawkin's Day made things look different. When he is thrown into the hard cruel world, Ken will just laugh at it, then go ahead and make a big success of himself.

CECIL SINCLAIR: "Ink" is a young man who always has a certain young lady by his side. His antics are nothing short of hilarious and he can get a laugh simply by "just playin' the game." He recently left us for the working man's world.

RON BURNETT: Quiet and likeable, Ron enjoys a good joke as well as the next person. He is a hard worker who gets the job done without any fanfare and boasting. Ron will probably continue to do well after he finishes school.
